**Gesamt: English - seminar**

**General questions: The instructor ...**

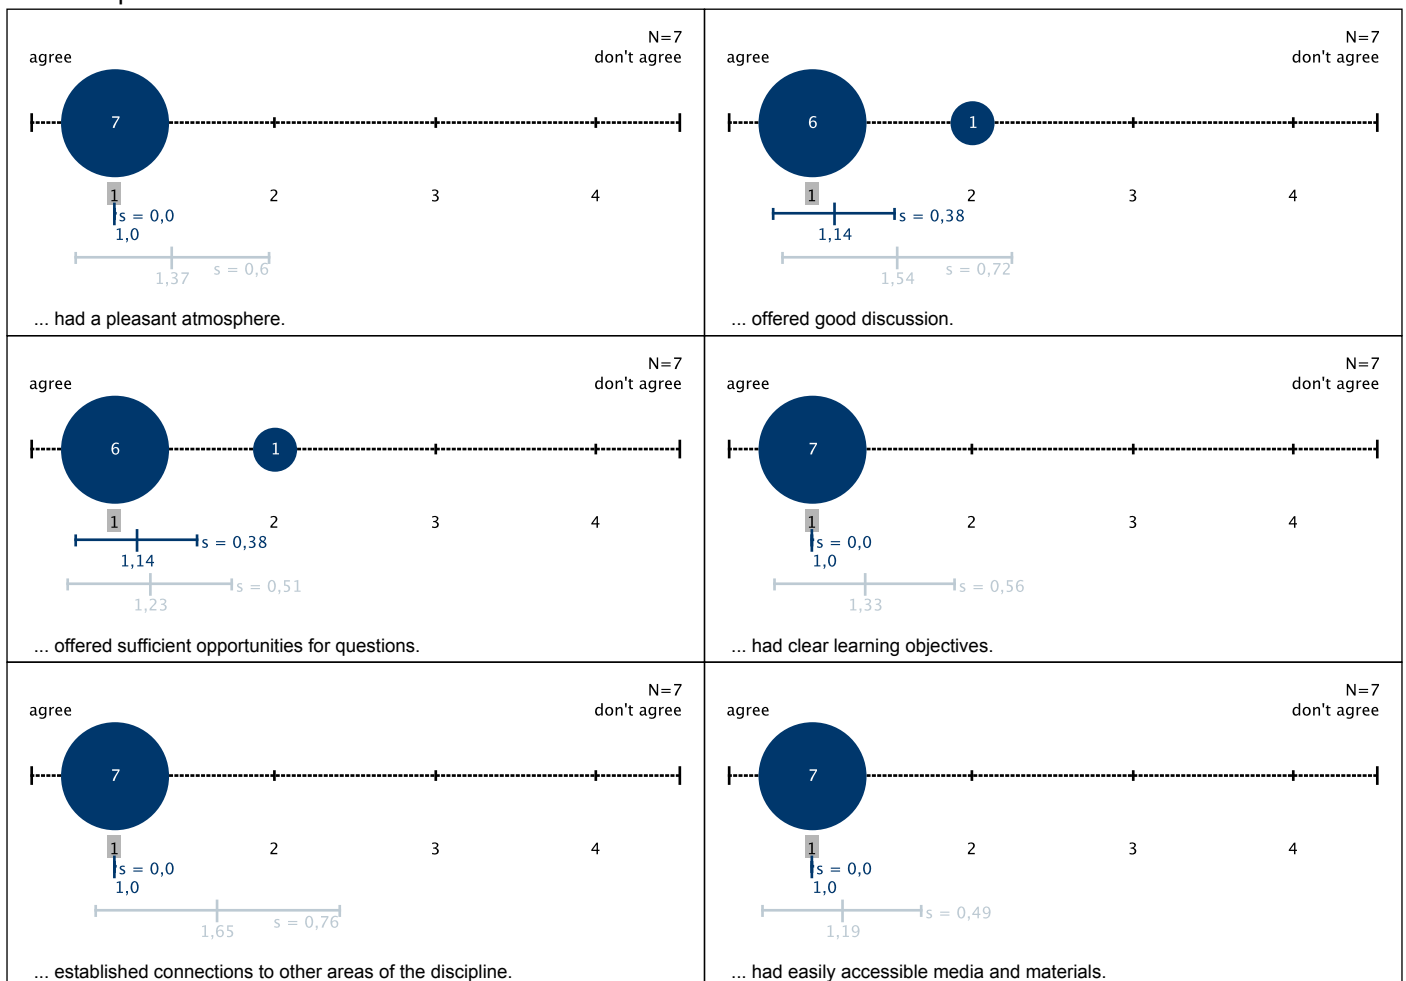

Note: Open questions will be attached to the evaluation as an image file, therefore the possibility to draw conclusions to the person by handwriting is given.

Please write below any further comments you might have regarding the instructor's teaching performance.

- Entertaining, clear way of speaking and presenting the topic. Maybe talk a little bit slower/ clearer sometimes.

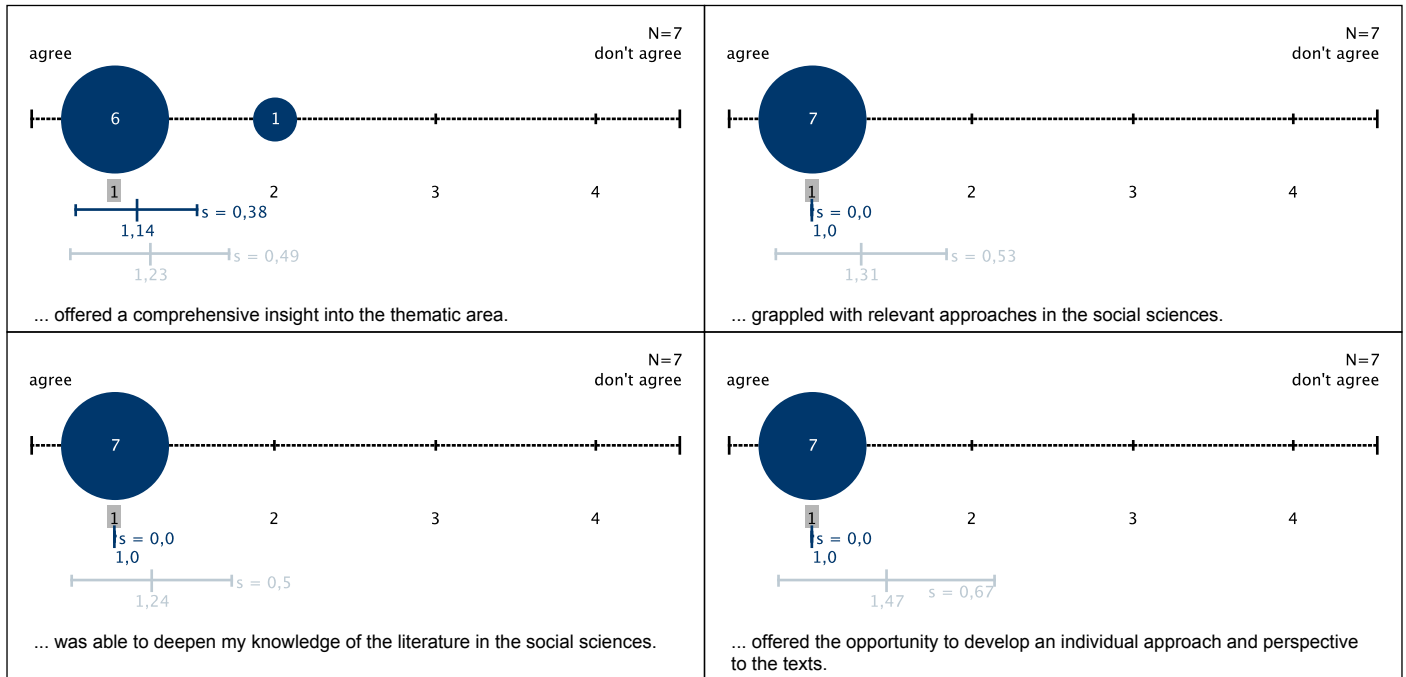

General questions: The class ...

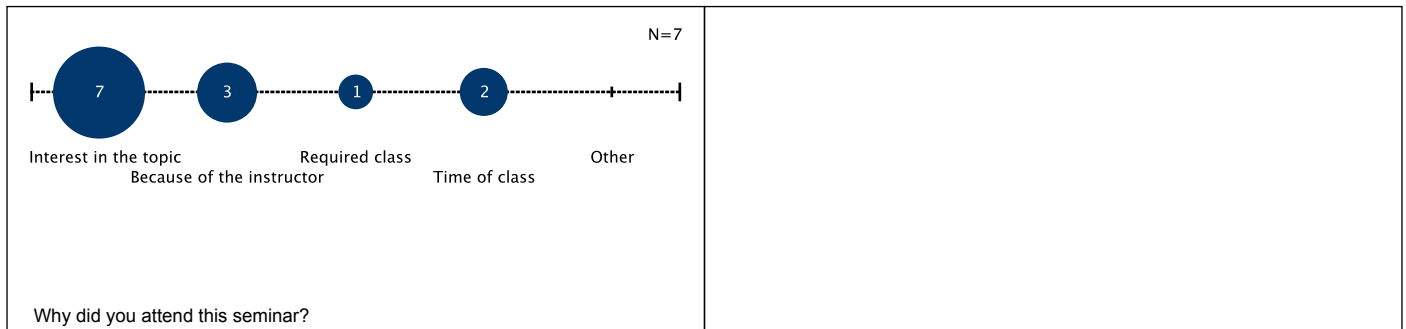

Please write below any further comments you might have about the class.

- The first session was a little full/ packed (regarding the content), which was a little overwhelming.

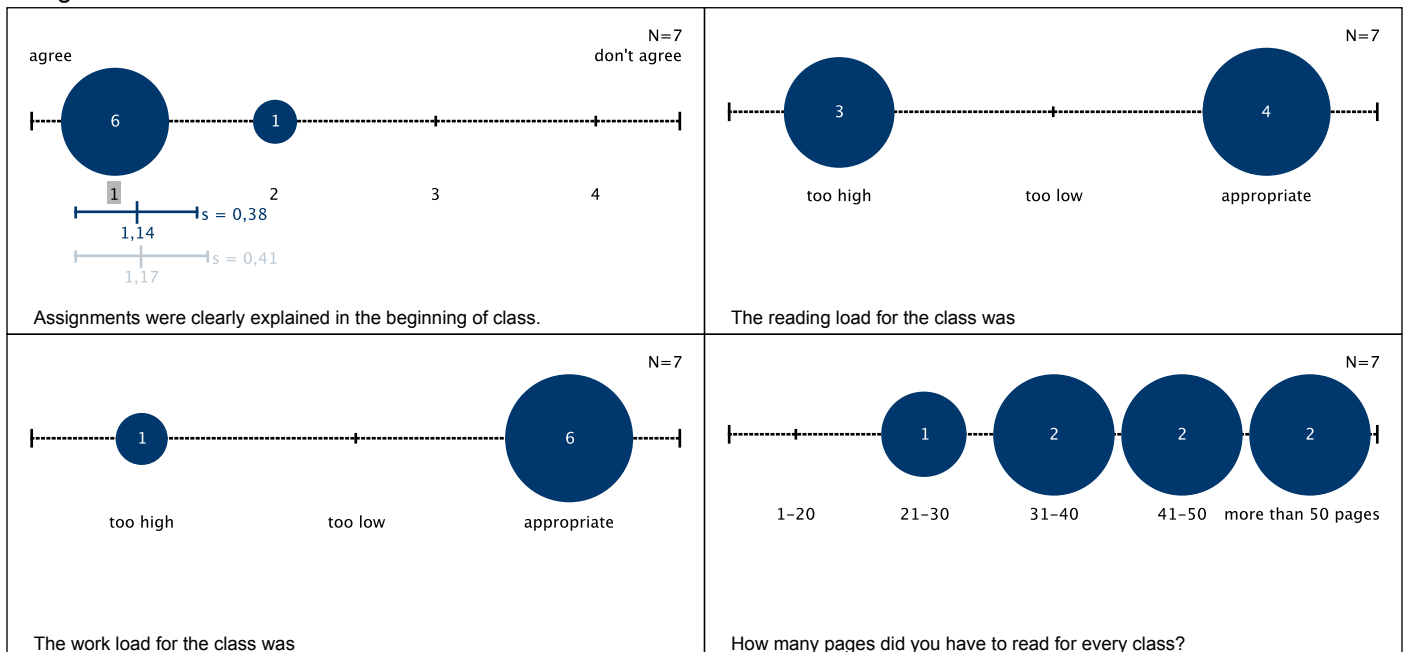

It would have been nice to have some more time or a conclusion/ a final lookout, since the articles results sometimes seemed contradictory. I found the results and approaches interesting, it would just be nice to have a clearer overview: What do we suppose to be key social factors to promote radical right voting? (e.g. sexism → more consistent results, political instability seemingly too (but why?)) and inconsistent results with economy/ migration?)

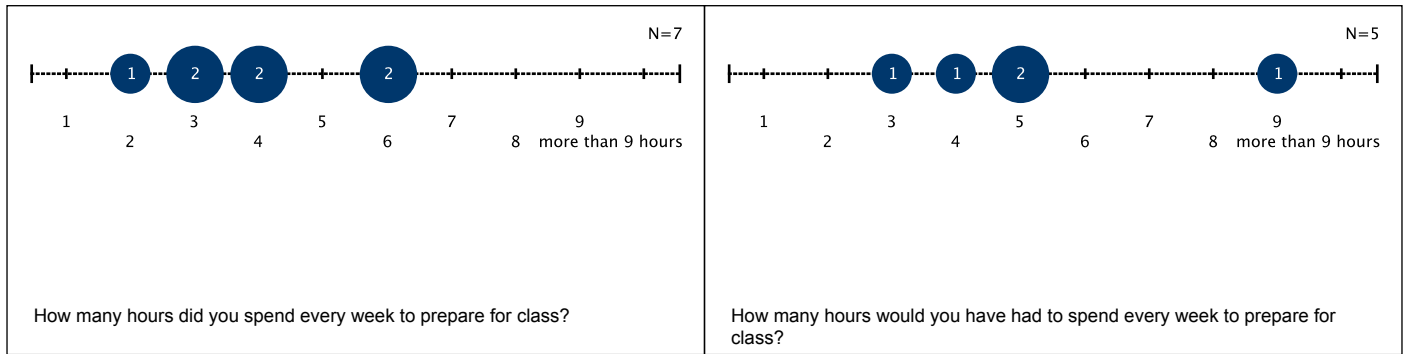

## Motivation

## Assignments

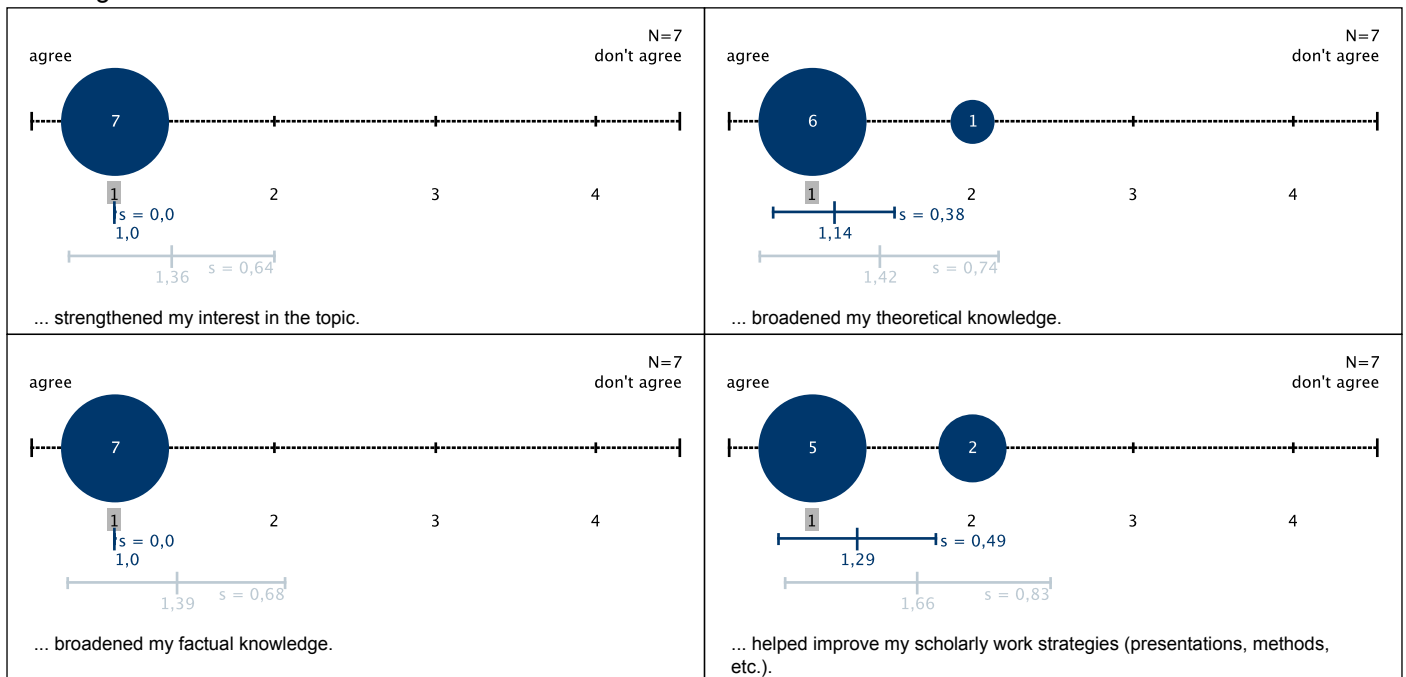

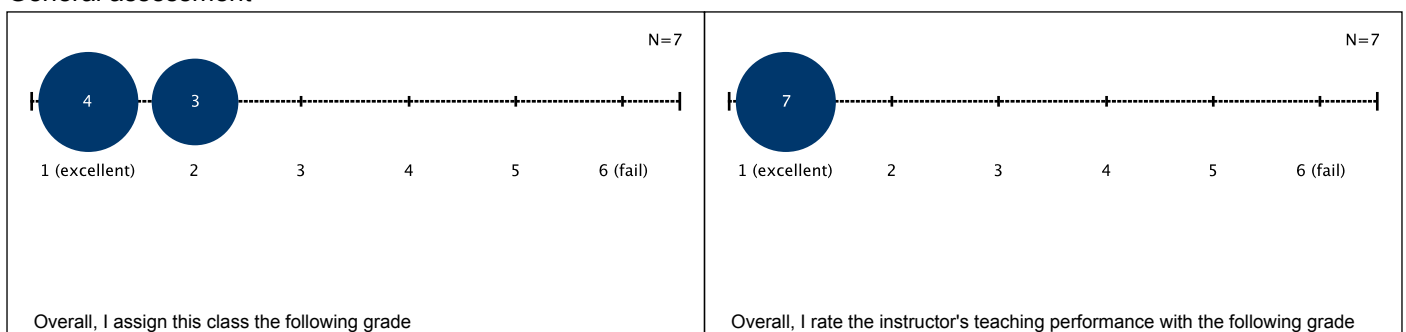

Please write below any further comments you might have about the assignments and the workload.

- Since it was a blockseminar, I spent maybe 3 hours preparing each session (6 hours per one week, 12 in common).
- The work and reading load would have been appropriate, if the course would have been a normal seminar and not a block seminar. because everything happend in the time span of 2 weeks (and I didn't start reading and doing the assignments way earlier) it was a bit much.

- I chose this course due to my interest for the topic without too many expectations as block seminars tend to be quite rushed and unfulfilling. Mr Wappenhans managed to make 4 sessions feel like a whole semester, I was truly impressed by the amount of topics and methodologies i gained insights into and his great teaching style! He managed to create a space that anyone, no matter how much background info they came in with could participate and learn. Thank you for this amazing seminar! (Too sad you can't grade BA Theses haha)
